THE PUBLIC LIBRARY.

At the March meeting of the City Council a committee was appointed to confer with the Trustees of the Public Library on Sutton street with a view to reaching some agreement, if possible, for improving the institution and making it all its founders intended it should be. At a conference held some days ago the committee received assurances that the Trustees are ready to turn over to the city the control and management of this institution, and it rests now with the City Council to decide whether the trust shall be accepted and the repairs and improvements be made.

In its report to be made to Council next Monday night, the committee will recommend several improvements. Some of these are absolutely necessary to preserve the valuable collection of books now on hand, and the others will greatly add to the attractiveness of the building and premises and make the institution a source of pride and usefulness to all the city, and especially a valuable adjunct to the city schools. These improvements will cost only a modest sum and Council should not hesitate to allow it, when the importance of this institution is considered and the further fact that the city already has a valuable collection of books in it known as the "Greenwood Library," and is yearly adding thereto.

THE CROP OUTLOOK.

The Cool Weather Has Proved Injurious to All Vegetation—Wheat Looking Bad—Fruit Damaged.

[Weekly Bulletin of Weather Bureau, April 26th.] Very cold weather prevailed until Friday, when the temperature rose rapidly and continued high during the remainder of the week. From two to five inches of snow fell in the western and southern portions of the State on the 20th, and this was followed by severe freezing weather in that part of the State. The week closed with a warm rain in progress, which will be very beneficial.

Wheat looks bad and has turned yellow in some localities, due to the cold weather. Considerable corn has been planted and land is generally prepared for the seed. Tobacco plants are small and late and in some localities, where not properly protected, have been greatly injured by freezing. Oats, rye and grass have made slow growth and look bad. Gardens have made no advancement and early potatoes are coming up badly. Fruit has been severely injured by freezing weather. In the south-central and western portions of the State the peaches and cherries appear to be about ruined and early apples badly injured. In the north-central and northeastern counties the outlook is somewhat more favorable.

Farm work is progressing fairly well.

Curious Things Happening These Days.

[Winchester Democrat.]

In the Republican convention at Lexington Saturday, John T. Shelby, the law partner of Col. Breckinridge, was a member of the Committee on Resolutions which reported in favor of Jordan Jackson (colored) against Gov. Bradley for delegate from the State-at-large to the national Republican convention, and the negro Jackson gave Judge George Denny the lie, and Judge Denny took it. These are curious times and they produce curious things.

STREET SPRINKLING

A Sanitary Necessity—A Timely Suggestion From the Board of Health On the Subject.

The unpleasant duties for the abatement of nuisances existing imperatively demanded of the Board of Health have been faithfully discharged. The undesirable people who have been warned from coming to this city to become a charge upon its charity from infected districts where contagion prevailed is a case in point. Wherever such has been called to the notice of this board the past year it has received prompt attention. To lighten the duties of the members of this thankless and unalarmed office, it may be pertinent at this juncture to call the attention of our citizens to the following article from a recent issue of the Louisville Post explanatory of the situation and demands at that place which affects our interests similar to that of the city of Louisville:

Health conditions of all cities, especially Louisville, require sprinkling of the streets, says Dr. M. K. Allen, City Health Officer, and in his annual report he will recommend to the General Council that the entire city be sprinkled during the summer months when the streets are covered with dust. Street sprinkling will result in a lessening of the number of cases of tuberculosis, scarlet fever, pneumonia and other diseases which are caused by the health authorities as wind-conveyed as distinguished from water-conveyed diseases, he thinks.

"In view of the present discussion with regard to the sprinkling of the streets," said Dr. Allen yesterday, "I think it pertinent to call attention to the improved health conditions which will result from the sprinkling of the streets. Few people realize the importance of this aspect of the question. It far outpaces the other and generally understood question of mere physical discomfort, for the dust which is so disagreeable carries with it all kinds of germs and principally the germs of consumption. Whenever the streets are dry and dusty the wind stirs up and sets in motion immense quantities of germs which are thus carried into the lungs and system of people on the streets.

"Sprinkling will do away with this form of distribution of these diseases and will have a great effect on the death rate of the city. It has been tested in other cities and has been found that when the streets are sprinkled consumption is less frequent. It is simply a matter of common reason, as it can easily be shown that if the germs are in the dust they will not be conveyed in the air if the dust is settled with water. I will advise the General Council that it is of great importance from a standpoint of health that the streets should be sprinkled in the dry, summer months and that the dust should be settled. I will advise that all the streets in the city be sprinkled."

Apart from the foregoing suggestion, it must be remembered that the fine penetrating limestone dust of this region is equally deleterious to weak lungs. It not only aggravates lung disease, but may augment a form of "stone-cutters" phthisis.

A GREAT TRUTH.

How it Has Spread From Home to Home in Maysville.

In every part of Maysville, in the homes of the wealthy, in the humble abode of the man of toil, 'tis now a well-known fact—a great truth—that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. M. C. Chisholm of 343 East Second street says: "Mr. Chisholm speaks in high terms of Doan's Kidney Pills. He procured them at J. Jas. Wood & Son's drugstore, corner West Second and Market streets, and their use proved them to be an effective kidney remedy. I have heard others express their appreciation of Doan's Kidney Pills. A medicine which cures kidney trouble is a most desirable one of which to know."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name DOAN'S and take no substitute.

CURES WITHOUT STOMACH DOSING.

Hyomei Cures Catarrh by Simple Breathing—J. J. Wood & Son Refund Money if It Fails to Cure.

A long stride toward solving the mystery of curing catarrh was taken with the discovery of Hyomei. In fact, the percentage of cures by this treatment proves it equal to the final tests.

The folly of taking medicine into the stomach to cure catarrh of the nose, throat and lungs, has been realized by physicians, but not until Hyomei was known, had they a practical method that would obviate stomach dosing.

A complete Hyomei outfit costs but \$1, and consists of a neat pocket inhaler that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomei.

Breathing Hyomei through the inhaler, every particle of air that enters the nose, throat and lungs, is charged with a healing balsam that soothes and allays all irritation, kills the catarrhal germs and enriches the blood with additional ozone.

J. J. Wood & Son have so much faith in the power of Hyomei to cure catarrh, that they are selling it under their personal guarantee to refund the money if it does not give positive relief.

Stock Ills Overcome!

You appreciate the money value of your own health; the health of your stock is a matter of profit also. Just now the health of stock should be closely looked after; it will mean dollars for you later. The use of a good stock food yields large returns on the investment every time.

Chenoweth's Blue Grass Stock Food!

You can depend upon it; no other so prompt in results, and no other worthy powder that costs less. Equally good for horses, cattle, sheep or hogs.

CLUSTER.

This noted saddle and harness stallion will make the season at Daulton Bros. stable, at the very low price of \$15 to insure a living colt. He is too well known to make any further remarks. Call and see him before breeding your mares. The mare sold by Jas. Brannon this week at \$600 was by Cluster.

Notice.

I am closing out the large stock of music in the window at John I. Winter & Co.'s at cut rate prices, in order to take the new issue of the Chaperone-Remick Music Co. of Detroit. Your choice of any composition 17c. to 5. Yours truly, M. B. MAWHORTER.

HANDSOME CURTAINS!

Is there anything adds more elegance to a room than window draperies? Without them a room looks bare, with them there is an air of completion, no matter how meager the other furnishings may be. No woman with half an idea of Lace Curtains this spring can afford to miss seeing our stock. We have Curtains at every price and not even in the cheapest have we sacrificed quality. Many designs are exclusive, absolutely confined to us in Maysville. No season before have we had such a stock. Our new store offers opportunities for curtain displays which we have eagerly seized. And second only, in interest, to the quality and beauty of the curtains, is their littleness of price.

Handsomeness, Little Prices.

Life in summer will be more endurable for the restful coolness of these pretty Mattings. Some roll ends in 20 to 30 yard lengths will be closed out cheap. Don't buy without investigating—it costs nothing to look.

Wrappers For \$1.

Here's a group of pretty Wrappers in the fast color, light or dark, percales that make such serviceable negligee garments. You will notice some new trimming ideas too and altogether get more comfort, attractiveness and wear than a dollar ever bought before.

DEERING MACHINERY and TWINE.

Read what a Mason County farmer says of his Deering Binder:

This is to certify that I bought a Deering Tongue Truck 8 ft. Binder in 1902, and wish to say that it is as far ahead of the old 6 and 7 ft. binders as day is brighter than night. In one day I cut 33 acres of heavy wheat, and without tiring my horses any more than cutting 15 acres with the old 6 ft. binder. It is perfectly free from neck weight or side draft and a pleasure to operate, elevating grain that the old small binders would choke out. Too much cannot be said in favor of this matchless labor saver. I can cheerfully recommend it to all my friends as the binder par excellence. Very truly, CHAS. T. MARSHALL.

This is only a sample of what everybody says who has a Deering Ideal Binder.

Three Points For Men in Buying Spring Clothes!

FIRST, FASHION—This is a matter of individual taste. If they are not stylish you do not want them under any circumstances. The extensive variety which is ready for your inspection affords almost unlimited opportunities for comparison and you cannot fail to find something which will meet your every requirement.

SECOND, QUALITY—The reputation of our guaranteed clothes is so firmly established that we only say, "absolute satisfaction, or your money back."

THIRD, PRICE—Never consider what you spend, but rather what you receive for your money, and this is the only fair basis for comparison. Our guaranteed clothes are the finest we know of and are six months ahead of all others in style and worth considerably more from the quality standpoint, and that at the same or even a lesser price. \$10, \$12, \$15, \$20.

Sure Relief for Women.

No. 18 Central Ave.
HOT SPRINGS, ARK., April 30, 1903.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two, and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any.

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years.

I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

Anna Nelson
ORATOR, WEDNESDAY CHAUTAUQUA CLUB.

WINE of CARDUI

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.
